

AToN Center is a residential substance misuse facility that offers detox services and treatment of co-occurring disorders. AToN Center is a 10-acre campus with five unique homes. The grounds are lush and feel as if you are walking through a botanical garden.

We call every person here a resident because for your stay, this is home. We want you to feel safe and understood. We treat our residents with compassion and respect during their stay with us. We offer non-12 Step alternatives such as SMART, Refuge Recovery, and more.

AToN CENTER PHILOSOPHY

AToN Center is family-owned and believes in individualized care. We see addiction as a maladaptive coping mechanism and seek to find the root cause. We utilize a holistic approach to treat mind, body, and soul. There is no one-size-fits-all approach to treatment.

We believe in creating a space for healing. This includes avoiding stigmatizing language and a comfortable environment.

AToN stands for Aid to Navigation. Our goal is to help you find your direction.

Five individual therapy sessions per week.
Evidence-based curriculum includes CBT and trauma informed care.

DAILY INDIVIDUAL SESSIONS

Individual clinical sessions address co-occurring issues and their root cause, such as anxiety, depression, and trauma. We offer EMDR and family sessions to meet each individual's unique needs.

MEDICALLY ASSISTED DETOX

Our physician is a certified addiction specialist working with 24/7 nursing. We strive to make detox comfortable and, most importantly, safe.

INSURANCE ACCEPTED

AToN Center is in-network with Anthem. We can also work with many PPO insurance plans.

We believe self-care is paramount and should be practiced holistically. Residents receive three individual holistic sessions per week, options include massage, hypnotherapy, yoga, acupuncture, personal training and physical therapy.

Unlimited group holistics include sound bowl healing, meditation, breathwork, gym with Peoloton bikes, and hiking.
